Doublage de 61 mm

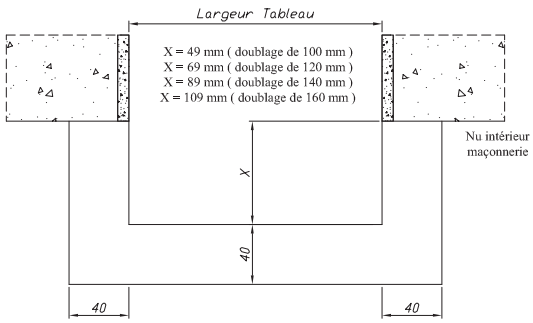
Doublage de 100 mm, 120 mm, 140 mm, 160 mm



Pour les autres épaisseurs de doublage, prendre la cote X du doublage inférieur et rajouter la différence.
Exemple : Pour un doublage de 110 mm
Prendre la côte X du doublage de 100 mm et rajouter la différence entre les deux doublages soit 110 - 100 = 10 mm
La côte X est de 49 + 10 = 59 mm
